## Disclosure on Risk Based Capital Adequacy under Pillar-III of Basel III for the year 2020

### A) Scope of Application

#### Qualitative Disclosure

|  |   |
|--|---|
| (a) The name of the top corporate entity in the group to which this guidelines applies   | Social Islami Bank Limited  |
| (b) An outline of difference in the basis of consolidation for accounting and regulatory purposes, with a brief description of the entities within the group (i) that are fully consolidated;(ii) that are given a deduction treatment; and (iii) that are neither consolidated nor deducted (e.g. where the investment is risk-weighted). | The quantitative disclosures are made on the basis of both solo & consolidated basis. SIBL has two subsidiaries and an offshore banking unit; i) SIBL Securities Ltd & ii) SIBL Investment Ltd. Both solo & consolidated financial statements have been prepared under applicable financial reporting standard & related instructions/ circulars issued by Bangladesh Bank from time to time. The assets, liabilities, revenues & expenses of the Subsidiaries are combined with the parent company (SIBL) on consolidated basis. So assets of the subsidiaries & offshore banking unit are risk weighted and equities of the subsidiaries are crossed out with the investment of SIBL while consolidating. |
| c) Any restrictions, or other major impediment, on transfer of funds or regulatory capital within the group.   | Not applicable  |

#### Quantitative Disclosures

|   |                |
|---|----------------|
| d) The aggregate amount of capital deficiencies in all subsidiaries not included in the consolidation that are deducted and name(s) of such subsidiaries. | Not applicable |
|---|----------------|

### B) Capital Structure

#### Qualitative Disclosures

|  |   |
|--|---|

## C) Capital Adequacy

| Qualitative Disclosures   |   |
|---|---|
| (a) A summary discussion of the bank's approach to assess the adequacy of its capital to support current and future activities. | SIBL has adopted standardized approach for computing capital charge for investment (credit) risk & market risk and basic indicator approach for operational risk. Assessment for capital adequacy is carried out in conjunction with the guidelines and regulations by Bangladesh Bank from time to time. Assessing regulatory capital in relation to overall risk exposures of a bank is an integrated and comprehensive process. SIBL, through its SRP team, is taking active measures to identify, quantify, manage and monitor all risks to which the Bank is exposed to. Assessment of Regulatory Capital will be in alignment with the findings of these exercises. |

## D) Investment Risk

### Qualitative Disclosures

|   |  |
|---|--|
| a) The General Qualitative disclosures requirement with respect to investment (credit) Risk, including: | <p>As per Bangladesh Bank guidelines, any investment if not paid within the fixed expiry date will be treated as Past due/Overdue.</p> <p>Bangladesh Bank issued circulars from time to time for strengthening Investment discipline. All Investments are categorized into four for the purpose of classification namely (i) Continuous Investment (ii) Demand Investment (iii) Fixed Term Investment and (iv) Short-term Agriculture &amp; Micro Investment.</p> <p>Classification rules for the above 4 categorized Investments are as under:</p> <p><b>Continuous and Demand Investments are classified as:</b><br/> ‘Sub-Standard’ - if it is past due / overdue for 3 months or beyond but less than 6 months.<br/> ‘Doubtful’ - if it is past due / overdue for 6 months or beyond but less than 9 months.<br/> ‘Bad/Loss’ - if it is past due / overdue for 9 months or beyond from the date of expiry or claim by the bank or from the date of creation of forced investment.</p> <p><b>Fixed Term Investments are classified as:</b><br/> (a) In case of any Installment(s) or part of a Fixed Term Investment amounting up-to Taka 10 lac is not repaid within the due date, the amount of unpaid installment(s) will be termed as past due / overdue investment In such a case following classification rules will be applied:<br/> ‘Sub-Standard’ - if the amount of past due/overdue installment(s) is equal or more than the amount of installment(s) due within 6 months; the entire Investment amount will be classified as ‘Sub-Standard’.<br/> ‘Doubtful’ - if the amount of past due/overdue installment(s) is equal or more than the amount of installment(s) due within 9 months, the entire Investment amount will be classified as ‘Doubtful’.<br/> ‘Bad/Loss’ - if the amount of past due/overdue installment(s) is equal or more than the amount of installment(s) due within 12 months, the entire Investment amount will be classified as ‘Bad/loss’.</p> <p>(b) In case of any Installment(s) or part of a Fixed Term Investment amounting more than Taka 10 lac is not repaid within the due date, the amount of unpaid installment(s) will be termed as past due / overdue investment In such a case following classification rules will be applied:<br/> ‘Sub-Standard’ - if the amount of past due/overdue installment(s) is equal or more than the amount of installment(s) due within 3 months; the entire Investment amount will be classified as ‘Sub-Standard’.</p> |
|---|--|

|  |   |
|--|---|
|  | <p>'Doubtful'- if the amount of past due/overdue installment(s) is equal or more than the amount of installment(s) due within 6 months; the entire Investment amount will be classified as 'Doubtful'.</p> <p>'Bad/Loss'- if the amount of past due/overdue installment(s) is equal or more than the amount of installment(s) due within 9 months, the entire Investment amount will be classified as 'Bad/Loss'.</p>   |
|  | <p>Short-term Agricultural and Micro-Investment are classified as under:</p> <p>'Sub-Standard'-If the investment not repaid within the due date as stipulated in the agreement and if such irregular continues, the investment will be classified as 'Sub-Standard' after a period of 12 month, as 'Doubtful' after the period of 36 months and as "Bad/loss" after a period of 60 months from due date.</p> <p>Continuous Investment, Demand Investment or Term Investment which will remain overdue for a period of 2 month or more will be put into 'Special Mention Account'.</p> <p>The rates of provisions are as under:</p> <p>a) General Provisions-will be maintained:</p> <p>i) @ 0.25% against all unclassified investments of SME (Small and Medium Enterprise) as defined by Bangladesh Bank, @ 1.00% against all unclassified investments except Consumer Financing, Investment to Brokerage House-Merchant Banks-Stock Dealer.</p> <p>ii) @ 1% on the Off Balance Sheet exposure.</p> <p>iii) @5% on unclassified investment amount of consumer financing, @ 1% on unclassified investment amount of House building finance, @ 1% on unclassified investment amount of Investment to professionals under consumer financing for setting up business, Investment to Brokerage House-Merchant Banks-Stock Dealer.</p> <p>iv) @ 5% on the outstanding amount of 'Special Mention Account'.</p>  |
|  | <p>b) Specific Provisions-will be maintained:</p> <p>i) Sub-standard: @ 20%</p> <p>ii) Doubtful: @ 50%</p> <p>    i) Bad /Loss: @ 100%</p> <p>c) Provision for Short-term Agricultural and Micro Investment:</p> <p>i) All Investment except bad/loss: 5%</p> <p>ii) Bad/Loss: @ 100%</p>   |
| ii) Description of approaches followed for specific and general allowances and statistical method; | <p>Social Islami Bank Limited has a well defined Investment Risk Management Manual duly approved its Board of Directors which is reviewed annually. Investment risk is one of the major risks faced by the bank and such investment risk management of the bank has been designed to address all risks associated with investments.</p> <p>The Bank has segregated duties of the Officers / Executives involved in investment related activities. A separate Corporate Division has been formed at Head Office, which is entrusted with the duties of maintaining effective relationship with the customer, marketing of Investment products, exploring new business opportunities etc. Moreover, investment approval, administration, monitoring and recovery functions have been segregated. For this purpose, two separate units have been formed. These are (a) Investment Risk Management Division, (b) Investment Administration Division. Investment Administration Division includes investment monitoring unit. Investment Risk Management Unit is entrusted with the duties of maintaining asset quality, assessing risk in lending to a particular customer, sanctioning investment (credit), formulating policy / strategy for lending operation etc.</p> <p>A thorough assessment is done before sanctioning of investment facility at Investment Risk Management Unit. The risk assessment includes borrower risk analysis, financial analysis, industry analysis, historical performance of the customer, security of the proposed Investment facility etc. The assessment process starts at Corporate Division by the Relationship Manager/Officer and ends at Investment Risk Management Unit. Proposal beyond their delegation are approved / declined by the Executive Committee and / or the Management.</p> <p>In determining single borrower / large investment limit, the Bangladesh Bank instructions are strictly followed. Internal audit is conducted on periodical interval to ensure compliance of Bank's and regulatory policies. Investments are classified as per Bangladesh Bank's guidelines.</p> |

## E. Equities: Disclosures for Banking Book Positions

### Qualitative Disclosures

a) The general Qualitative Disclosures requirement with respect to equity risk, including:

|  |   |
|--|---|
| a) Differences between holdings on which capital gains are expected and those taken under other objectives including for relationship and strategic reasons ;and   | <p>Social Islami Bank limited has two categories of equity investments namely (i) Quoted Shares- traded in the secondary market of DSE &amp; CSE like common stock, mutual fund, bond etc. and (ii) Unquoted Shares- currently not tradable in the secondary market.</p> <p>Unquoted shares include shares and securities which are characterized and categorized as (i) Held to maturity (ii) long term investment i.e. the Bank does not have any intention to sell securities immediately or in the near future (iii) Securities acquired under private placement which will be traded in the secondary market only after completion of required legal formalities with the BSEC (Bangladesh Securities &amp; Exchange Commission), DSE, CSE as per prevailing laws etc.</p>   |
| b) Discussion of important policies covering the valuation and accounting of equity holdings in the banking book, This includes the accounting techniques and valuation methodologies used, including key assumptions and practices affecting valuation as well as significant changes in these practices. | <p>Investment in Shares and Securities are for gaining dividend income or capital gain. Dividend income are recognized in the books of accounts of the bank as and when such dividend is received or right to receive such dividend is established.</p> <p>Both Quoted shares and unquoted shares are valued at cost and necessary provisions are maintained if the price falls below the cost. At the time of calculation of unrealized gain or loss of quoted shares, sufficient provisions on shares &amp; securities are made in the books of accounts after netting off the values of the portfolios but however unrealized gains are not accounted for. As per Bangladesh bank guidelines, HTF (Held for Trading) securities are revalued once in a week using marking to market concept and all such securities are revalued once in a year according to the Bangladesh bank guidelines.</p> |

## F. Profit Rate Risk in the Banking Book

| <b>Qualitative Discloser</b>  |  |
|---|--|
| a) The general qualitative discloser requirement including the nature of Profit Rate Risk in the Banking Book (PRRBB) and key assumptions, including assumptions regarding Investment prepayments and behavior of non-maturity deposits, and frequency of PRRBB measurement | Profit rate risks in the banking book are taken into account as one of the most potential risk. Sources and types of profit rate risks in banking book are (i) Gap or mismatch risk (ii) basic risk (iii) Net position risk (iv) embedded option risk etc. Changes in Profit rate in the market may adversely affect the financial matters of a bank such as Current Earnings, Net Investment Income, Net Worth etc. In the long run, impact on cash flows of the earning assets is mostly visible which may lead to asset liability mismatch. |
| <b>Quantitative Discloser</b>   |  |
| (b) The increase (decline) in earnings or economic value (or relevant measure used by management) for upward and downward rate shocks according to management's method for measuring IRRBB, broken down by currency (as relevant)   |  |

## G. Market Risk

| <b>Qualitative Discloser</b>                          |  |
|---|--|
| a) i) Views of BOD on trading / investment activities | The board of Directors of Social Islami bank Limited approves policies related to market risks by setting up limits and reviews of compliance status regularly.  |
| ii) Method used to measure market risk                | Standardized approach is being used to measure the market risk. The total capital requirement in respect of market risk is the aggregate capital requirement calculated for each of the risk sub-categories. For each risk category minimum capital requirement is measured in terms of two separately calculated capital charges for "specific risk" and "general market risk".   |
| iii) Market risk management system                    | The Treasury Division manages market risk covering liquidity, profit rate and foreign exchange risks with oversight from asset-liability Management Committee (ALCO) comprising senior executives of the Bank. ALCO is chaired by the Managing Director. ALCO meets at least once a month.   |
| iv) Policies and processes for mitigating market risk | There are approved limits for Investment deposit ratio, liquid assets to total assets ratio, maturity mismatch, commitments for both on-balance sheet and off-balance sheet items and borrowing from money market and foreign exchange position. The limits are monitored and enforced regularly to protect the market risks. The exchange rate of the Bank is monitored regularly and the prevailing market condition, exchange rate, foreign exchange position and transactions are reviewed to mitigate foreign exchange risks. |

## H. Operational Risk

| Qualitative Disclosures   |  |
|---|--|
| i) Views of BOD on system to reduce operational risk  | Operational risk implies the risk of loss of harm resulting from inadequate or failure of internal processes, people and systems or from external events. Capability to carry out a large number of transactions effectively and accurately while complying with applicable laws and rules constitutes operational risk management activities of the bank.<br>The policy for operational risks including internal control & compliance risk is approved by the board taking into account relevant guidelines of Bangladesh Bank. Audit Committee of the Board directly oversees the activities of internal control & Compliance to protect against all operational risk.   |
| ii) Performance gap of executive and staffs   | SIBL has a policy to provide competitive package and best working environment to attract and retain the most talented people available in the industry. SIBL's strong brand image plays an important role in employee motivation. As a result, there is no significant performance gap.  |
| iii) Potential external events  | No potential external events are expected to expose the Bank to significant operational risk.  |
| iv) Policies and process for mitigating operational risk  | The policy for operational risks including internal control & compliance risk is approved by the Board taking into account relevant guidelines of Bangladesh Bank. Policy guidelines on Risk Based Internal Audit (RBIA) system is in operation. As per RBIA branches are rated according to their risk grading/ scoring audit procedure and required frequent audit to the Branches are operated by the Audit Division. In addition, there is a Vigilance Cell established in the Bank to reinforce operational risk management of the Bank and to minimize the same. Bank's anti-money laundering activities are headed by (Chief Anti Money Laundering Compliance Officer) CAMLCO and their activities are devoted to protect against all money laundering and terrorist finance related activities. Apart from that, there is adequate check & balance at every stage of operation, authorities are properly segregated and there is at least dual control on every transaction to protect against operational risk. |
| v) Approach to calculating capital charges for operational risk   | Basic indicator Approach is used for calculating capital charge for operational risk as of the reporting date.   |
| Quantitative Disclosures  |  |
| As per risk based capital adequacy guidelines, capital charge for operational risk is equivalent to 15% of average annual gross income of three previous years where negative figures are excluded. |  |
| As per risk based capital adequacy guidelines Social Islami bank Limited follows the Basic Indicator Approach for computing capital charge for operational risk.                                    |  |

# I. Liquidity ratio

In line with the provisions of liquidity risk management under Basel III, Bangladesh Bank on the basis of the relevant guideline of Bank for International Settlements (BIS) has identified the (i) Liquidity Coverage Ratio (LCR); (ii) Net Stable Funding Ratio (NSFR); and (iii) Leverage under the purview of 'Liquidity' ratio vide BRPD Circular No. 18 dated 21 December 2014 and DOS Circular No. 1 dated 1 January 2015.

| Qualitative Disclosures |   |   |
|-------------------------|---|---|
| a)                      | i) Views of Board of Directors (BOD) on system to reduce Liquidity Risk | <p>The Board of Directors reviews the liquidity risk of the Bank on quarterly rest while reviewing the Quarterly Financial Statements, Stress Testing Report etc. Besides, the EC of the Board also reviews the liquidity position while reviewing the management information system (MIS) report on monthly basis.</p> <p>Upon reviewing the overall liquidity position along with the outlook of SIBL funding need, investment opportunity, market/industry trend, the Board takes its strategic decision regarding deposits, funding, investments, loans as well as interest rates policies etc.</p> <p>The Board of SIBL always strives to maintain adequate liquidity to meet up Bank's overall funding need for the huge retail depositors, borrowers' requirements as well as maintain regulatory requirements comfortably.</p>  |
|                         | ii) Methods used to measure Liquidity Risk                              | <p>The maintenance of Cash Reserve Requirement (CRR) and Statutory Liquidity Ratio (SLR) are considered as the fundamental methods/tools to measure the liquidity position/risk of SIBL. However, under Basel III, the following methods and tools are mandated for measuring the liquidity risk.</p> <p><b>a) Liquidity coverage ratio (LCR):</b> Liquidity Coverage Ratio ensures to maintain an adequate level of stock of high quality liquid assets that can be converted into cash to meet its liquidity needs (i.e. total net cash outflows) over the next 30 calendar days.</p> <p><b>b) Net Stable Funding ratio (NSFR):</b> Net Stable Funding Ratio aims to limit over-reliance on short-term wholesale funding during times of abundant market liquidity and encourage better assessment of liquidity risk across all on- and off-balance sheet items. The minimum acceptable value of this ratio is 100 percent, indicating that, available stable funding (ASF) should be at least equal to required stable funding (RSF).</p> <p>ASF consists of various kinds of liabilities and capital with percentage weights attached given their perceived stability.</p> <p>RSF consists of assets and off-balance sheet items, also with percentage weights attached given the degree to which they are illiquid or "long-term" and therefore requires stable funding.</p> <p>In addition to the above, the following measures have been put in place to monitor the liquidity risk management position of the Bank on a continued manner:</p> <ol style="list-style-type: none"> <li>Asset-Liability Maturity Analysis (Liquidity profile);</li> <li>Whole sale borrowing capacity;</li> <li>Maximum Cumulative Outflow (MCO);</li> </ol> <p>Besides the above, the following tools are also used for measuring liquidity risk:</p> <ol style="list-style-type: none"> <li>Stress Testing (Liquidity Stress);</li> <li>Net open position limit - to monitor the FX funding liquidity risk;</li> </ol> |
|                         | iii) Liquidity risk management system                                   | <p>In SIBL, at the management level, the liquidity risk is primarily managed by the Treasury Division (Front Office) under oversight of ALCO which is headed by the Managing Director &amp; CEO along with other senior management.</p> <p>Treasury Division (Front Office) upon reviewing the overall funding requirements on daily basis sets their strategy to maintain a comfortable/adequate liquidity position taking into consideration of Bank's approved investment (credit) deposit ratio, liquid assets to total assets ratio, asset-liability maturity profile, Bank's earning/profitability as well as overall market behavior and sentiment etc.</p> <p>Apart from the above, Risk Management Division also monitors &amp; measures the liquidity risk in line with the Basel III liquidity measurement tools, namely, LCR, NSFR, Leverage Ratio. RMD addresses the key issues and strategies to maintain the Basel III liquidity ratios to the respective division (s) on regular interval.</p>  |

|  |  |  |                        |
|--|--|--|------------------------|
|  | iv) Policies and processes for mitigating Liquidity Risk   | The Asset-Liability (ALCO) policy leads the process & procedures for mitigation of liquidity risk of SIBL. ALCO works under specific Terms of References (functions) approved by the Board. Treasury Division (Front Office) and ALM desk under regular supervision of Top Management reviews the overall liquidity position of SIBL and takes appropriate strategy, process in line with the industry position for managing liquidity risk of the Bank. |                        |

## J. Leverage Ratio

### Qualitative Disclosures

|  |  |   |
|--|--|---|
|  | i) Views of BOD on system to reduce excessive leverage                             | <p>The Board of Directors of SIBL primarily views on the growth of On and Offbalance sheet exposures commensurate with its expected capital growth so that the excessive leverage is reduced. Within the On-balance components, again, the Board emphasizes on the growth of the prime component i.e. the loans and advances and maintaining good asset quality so as to maximize the revenue as well as the capacity to generate capital internally (in the form of retained earnings) to trade-off the excessive leverage supposed to be caused by asset growth.</p> <p>At the outset of asset growth, the Board also views the growth of its sources of fund i.e. deposit growth taking into consideration of projected business growth so that the investment (credit)-deposit ratio is maintained at a sustainable basis as well as to reduce the mismatches of asset- liability gap within the tolerable limit to manage the liquidity risk.</p>  |
|  | i) Policies and processes for managing excessive on and off-balance sheet leverage | <p>First and foremost, Bank's policy is to maintain the Leverage Ratio (Tier 1 capital as proportion to total adjusted On and Off balance sheet asset) well above the regulatory requirement. To this end, the striking components of balance sheet, namely, the deposits &amp; borrowing, loans &amp; advances, other liquid assets (treasury bills, bonds, fund placements) are analyzed on monthly basis.</p> <p>Measures are taken to contain the growth of overall size of balance sheet (On and Off balance sheet exposures aggregately) considering short term outlook of the industry indicators as well as possible growth of equity (Tier 1 capital) of the Bank on quarterly rest.</p> <p>With regard to managing the excessive leverage, the regulatory stance through the monetary policy initiatives i.e. the scope of expected business potential (growth), estimated money supply, inflation, resulting the estimated overall liquidity of the industry as well as the Bank in particular is also considered.</p> |
|  | iii) Approach for calculating exposure/Leverage                                    | <p>The exposures of balance sheet representing the overall position of the Bank as of the reporting date are calculated and presented in terms of applicable relevant accounting standards, i.e., IASs (BASs), IFRSs (BFRSs), etc.</p> <p>The accounting values of assets and liabilities are also presented and measured at gross. Netting of assets and liabilities are also made where permitted in compliance with the respective accounting standards and the regulatory instruction.</p> <p>For calculating "leverage", SIBL follows the 'Leverage Ratio' approach/method as suggested by Bangladesh Bank</p>   |

### Quantitative Disclosures

|                     | i) Leverage Ratio               | <p>Leverage Ratio (LR) under Basel III of Social Islami Bank Limited as of 31 December 2020 was as under:<br/> <b>Leverage Ratio (LR)</b> = Tier 1 Capital (after related adjustment)/Total Exposure (after related deductions)</p> <table border="1" data-bbox="624 1464 1544 1554"> <thead> <tr> <th data-bbox="624 1464 1038 1496" rowspan="2">Particulars</th> <th colspan="2" data-bbox="1038 1464 1544 1496">Ratio (%)</th> </tr> <tr> <th data-bbox="1038 1496 1235 1527">BB requirement</th> <th data-bbox="1235 1496 1544 1527">SIBL's position</th> </tr> </thead> <tbody> <tr> <td data-bbox="624 1527 1038 1554">Leverage Ratio (LR)</td> <td data-bbox="1038 1527 1235 1554">&gt; 3%</td> <td data-bbox="1235 1527 1544 1554">4.82%</td> </tr> </tbody> </table> | Particulars | Ratio (%) |  | BB requirement | SIBL's position | Leverage Ratio (LR) | > 3% | 4.82% |

|                     | iii) Off balance sheet exposure | Total Off-balance Sheet exposure for calculating Leverage Ratio under Basel III of Social Islami Bank Limited as of 31 December 2020 is Tk 16,727.51 million.   |             |           |  |                |                 |                     |      |       |
|                     | iv) Total exposure              | Total Exposures for calculating Leverage Ratio under Basel III of Social Islami Bank Limited as of 31 December 2020 is Tk. 3,93,203.22 million.   |             |           |  |                |                 |                     |      |       |

## K. Remuneration

| Qualitative Disclosures  |  |   |
|--|--|---|
| a  | Information relating to the bodies that oversee remuneration   |   |
|  | i) Name of the bodies that oversee remuneration  | Board of Directors of the Bank is actually the main body to oversee the remuneration. The Board, however, generally suggest the management to place proposal for revision of remuneration from time to time.<br><br>At the management level, primarily the Human Resources Division oversees the 'remuneration' in line with its HR management strategy/policy under direct supervision and guidance of the Board of Directors. |
|  | ii) Composition of the main body overseeing remuneration   | Board of Directors of the Bank form a special committee consisting of competent directors for reviewing the proposal of the MANCOM regarding remuneration.<br><br>The MANCOM is headed and chaired by the Managing Director& CEO of the Bank; along with other members of top executives and the Heads of different functional divisions of Head Office.  |
|  | iii) Mandate of the main body overseeing remuneration  | The mandate of MANCOM as the main body for overseeing the Bank's remuneration is to review the position of remuneration and associated matters and recommend to the Board of Directors for approval of its restructuring, rearrangement and modification commensurate with the industry best practices as per requirement.  |
|  | iv) External consultants whose advice has been sought, the body by which they were commissioned, and in what areas of the remuneration process.  | The Bank has no External Consultant permanently regarding 'remuneration' and its process. However, experts' opinion may have been sought in case to case basis regarding income tax matter, lawyers' opinion for settlement of employees' dues in case of death, penalty etc. if required, by the management.   |
|  | v) A description of the scope of the bank's remuneration policy (eg by regions, business lines), including the extent to which it is applicable to foreign subsidiaries and branches.  | The Bank does not differentiate the 'Pay Structure' and 'employee benefits' by regions.   |
|  | vi) A description of the types of employees considered as material risk takers and as senior managers, including the number of employees in each group.  | We consider the members of the senior management, branch managers and the employees engaged in different functional divisions at Head Office (except the employees involved in internal control, risk management and compliance) as the material risk takers.   |
| b  | Information relating to the design and structure of remuneration processes.  |   |
|  | i) An overview of the key features and objectives of remuneration policy.  | Remuneration and other associated matters are guided by the Bank's Service Rule as well as instruction, guidance from the Board from time to time in line with the industry practice with the objectives of retention/hiring of experienced, talented workforce focusing on sustainable growth of the Bank.   |
|  | ii) Whether the remuneration committee reviewed the bank's remuneration policy during the past year, and if so, an overview of any changes that were made.   | Yes. A committee was formed to review the bank's remuneration policy under supervision of board of directors to revise the pay scale in line with the industry practice and accordingly bank allowed a revised pay scale to the employee of SIBL with effect from 01.02.2017.   |
| iii) A discussion of how the bank ensures that risk and compliance employees are remunerated independently of the businesses they oversee. | The risk and compliance employees are carrying out the activities independently as per specific terms of references, job allocated to them.<br>Regarding remuneration of the risk and compliance employees, Human Resources Division does not make any difference with other mainstream/ regular employees and sets the remuneration as per the prevailing rule of the Bank primarily governed by the employees' service rule of the Bank. |   |
| c  | Description of the ways in which current and future risks are taken into account in the remuneration processes.  |   |
|  | i) An overview of the key risks that the bank takes into account when implementing remuneration measures.  | The business risk including investment(credit)/default risk, compliance & reputational risk are mostly considered when implementing the remuneration measures for each employee/group of employee. Financial and liquidity risk are also considered.  |

|   |   |  |
|---|---|--|
|   | ii) An overview of the nature and type of the key measures used to take account of these risks, including risks difficult to measure.   | Different set of measures are in practice based on the nature & type of business lines/segments etc. These measures are primarily focused on the business target/goals set for each area of operation, branch vis-à-vis the actual results achieved as of the reporting date. The most vital tools & indicators used for measuring the risks are the asset quality (NPL ratio), Net Interest Margin (NIM), provision coverage ratio, credit-deposit ratio, cost-income ratio, growth of net profit, as well the non-financial indicators, namely, the compliance status with the regulatory norms, instructions has been brought to all concerned of the Bank from time to time.<br>While evaluating the performance of each employee annually, all the financial and non-financial indicators as per pre-determined set criteria are considered; and accordingly the result of the performance varies from one to another and thus affect the remuneration as well. |
|   | iii) A discussion of the ways in which these measures affect remuneration.  | While evaluating the performance of each employee annually, all the financial and non-financial indicators as per pre-determined set criteria are considered; and accordingly the result of the performance varies from one to another and thus affect the remuneration as well.   |
